THINKS ONE BUYER WOULD CUT COST OF CITY SUPPLIES

Senator Mills Introduces Bill for Central Purchasing Bureau.

(Special from a Staff Correspondent of The Evening World.)

ALBANY, Feb. 28.—Senator Mills has introduced a bill for the creation of a purchasing department for the City of New York. This bill takes from the jurisdiction of the various borough presidents the buying of supplies, and is meeting with considerable opposition from the borough chiefs and those who see in it a centralization of political power. Senator Cromwell, for many years President of Richmond Borough, said today he did not think that the bill would result in the economies its sponsors hope for. The net result, he said, would be that small dealers in the various boroughs would be eliminated from furnishing supplies and a few large concerns would obtain a monopoly, which might and might not bring about a saving to the people. The bill includes almost all of the departments in the city government and is an amendment to the general Charter of the city.

State Comptroller Travis is to ask for legislation requiring licenses from persons serving as private detectives, as well as from the agencies which employ them. All private detective bureaus are registered under the jurisdiction of the State Comptroller. He points out that while the present law is intended to prevent persons of questionable character from engaging in the business, it does not fully meet the situation. "The Comptroller's office believes," he says, "that the proposed requirements will further protect the liberty of citizens in licensing those employed to spy upon others. The experience of other States has shown that the

personal licensing of every detective means the elimination of some of the present evils."

A bill by Senator Hill which seeks to amend the railroad law apparently has a direct bearing upon the recent traction strikes in New York City. It provides that all motormen engaged in operating electric "multiple-unit" trains with one or more cars with high-speed brakes must have had at least one or more years' experience on steam or electric railroads.

The question which presents itself in connection with this piece of legislation is as to its effect upon the employment of strike-breakers.

Senator Foley has introduced a bill authorizing the local authorities of New York City to make regulations governing the removal of ice and snow by railroad corporations. A penalty of \$50 for each city block which the railroad fails to clear is provided.

All that great waterhood of gazers into the future who look into crystal balls and tell the wayfarer man and woman the color of the hair and eyes by which they may know their fates will resent the introduction of a new bill by Mr. Smith directed at the fortune-telling cult in New York City. Mr. Smith would have a convicted fortune-teller fined not more than \$250 or imprisoned for not more than six months for each case in which he or she endeavored to relieve the mind of a visitor concerning the veiled events of the future.

By a bill introduced in the Assembly by Mr. Shapiro the Charter is amended by abolishing the Receiver of Taxes and creating a bureau for the collection of taxes and assessments in the Water Department. The salary is fixed at \$5,500 a year.

Nathan D. Perlman of the Sixth Assembly District of New York has introduced a bill relating to the cold storage of food which requires warehousemen to submit reports to the State Department of Health showing the quantity of each foodstuff in storage and the names of the persons or corporations who own it.

"WIDOW" WITH HUSBAND PAYS BACK CITY AID

Woman Who Got \$151 for Support of Children Says Lawyer Advised Her to Apply.

The first case of fraud in the general investigation being made by the Child Welfare Board was brought to the attention of Magistrate Koenig in the Centre Street Police Court this morning when Mrs. Meta A. Weiser, forty-five, of No. 3541 Third Avenue, was arraigned on a complaint charging her with obtaining \$151.62 from the city by fraudulent means.

Mrs. Weiser applied for assistance on behalf of her three children, saying she was the widow of Ludwig Weiser, who died in 1909. She was allowed \$21.66 a month. Later Harry L. Hopkins, Secretary of the board, discovered that Mrs. Weiser had been married to Ernest Janert of No. 1218 Brook avenue, Bronx, in 1911.

In court this morning Mrs. Weiser told Magistrate Koenig that her second husband had deserted her four weeks after their marriage and left her to support the children, and a lawyer had advised her to apply for the pension. She made restitution, and Mr. Hopkins withdrew the complaint.

DYING, HE RUNS TWO BLOCKS.

Escaped Prisoner Shot by Policeman Trying to Capture Him.

Percy Harris, a young negro who escaped last night from a cell in Police Headquarters in New Rochelle, was shot and killed early to-day by Policeman Charles Seacord, who had been sent to Harris's home at No. 21 Cedar Street to recapture him. Harris walked out of jail when he found the door of his cell unfastened and went home. He broke away from Seacord at the door of the house and ran through Cedar Street. Seacord fired eight shots in the air and then two more at the fugitive. Both of the latter struck Harris, one in the leg and the other in the back, piercing his lung. Harris ran two blocks before he fell.

WARRANT SIGNED IN BLANK FIGURES IN BRIBERY TRIAL

Sensational Disclosures Promised in Case of Detectives Enright and Foley.

Sensational disclosures regarding the activities of members of the white slave squad of policemen are promised by Assistant District Attorney James E. Smith in the trial of Detective Sergeant William J. Enright, head of that squad, and Policeman David J. Foley before Supreme Court Justice Tompkins. Foley's trial began to-day.

The policemen are charged with bribery in accepting \$50 from the keeper of a brothel on the East Side for protection last May. Indictments for perjury in cases instituted by the detectives are also pending against them.

At the time of the arrest of Enright and Foley last July, it was learned to-day, a warrant signed in blank by a City Magistrate was found in Enright's possession. This will figure in the trial of both men.

The arrest of the two policemen followed confessions of a number of men indicted for extorting money from disorderly house keepers throughout the city.

BLUEJACKETS ENTER CUBA TO PROTECT FOREIGNERS

Two Squads of Our Men Drafted From Naval Station at Caimanera.

WASHINGTON, Feb. 28.—Two squads of American bluejackets were sent from the American naval station at Caimanera, Cuba, into the town of Guantanamo on Monday to quell a small riot and protect foreigners and their property if it became necessary.

Reports received at the Navy Department to-day said order was restored without violence, and unless there is a recurrence of trouble the bluejackets will be withdrawn.

The incident is not regarded here as important and appears not to have been resented by the Government of Cuba, which did not construe it as an act of intervention.

The disorder in Guantanamo appeared only remotely connected with the relief movement in other parts of the island.
